Описание:

A small apartment complex is located next to the main road, close to beaches, supermarkets, schools. Affordable apartments are great for investment to rent out, live in and thanks to rising property prices in North Cyprus for resale in the future.
The complex has only three two-story blocks, in which there are only 42 apartments. The complex has a communal swimming pool 17 x 7 m., as well as decorative pools.
Offered for sale are apartments with one and two bedrooms. Apartments on the first floor will be able to use a small private plot of land, on the second - a roof terrace.
The apartments have an area 65 sq. m.
