Two bedroom apartment, new construction standards in Cyprus

s-isk- 42

Описание:

An innovative, modern apartment complex has introduced a new approach to residential construction in Northern Cyprus. The complex offers residents all the conditions for a happy and peaceful life. Built on a 44,000 sqm plot, it provides all the advantages of a well-developed infrastructure, world-class quality standards, and a convenient location. The complex is situated just 500 meters from a supermarket and 1,300 meters from a sandy beach, with free regular transportation available for residents.

All apartments in the complex feature spacious layouts, exceptional quality, and high-standard finishing.

Two-bedroom apartments are available on various floors, with sizes ranging from 81 sqm (gross) to 136 sqm total, depending on the building block and floor level. The apartments are offered both fully completed and at the final stage of construction. Buyers are provided with flexible payment plans (discussed individually), designer furniture, and rental services.
