Penthouses in a beautiful complex in Catalkoy

c-cat-78

Описание:

The penthouses are offered for sale in a gated complex with a swimming pool. The complex not only stands out for its excellent location - on the slopes of the Catalkoy settlement in a green and quiet place, but also for its architecture. The buildings are built in a traditional style using natural stone and Cypriot arches, and the level of quality of construction and finishing materials, as always, correspond to the highest standards of residential development.
The complex provides a public area and a communal pool for the convenience of residents.
