Описание:

This stunning residential complex is conveniently located 600 meters from the sea, in a quiet location and close to all the infrastructure necessary for a comfortable life and recreation. The settlement of Karsiyaka, where the complex is located, has long been a favorite region for many foreign citizens - after all, the construction of multi-storey buildings is prohibited in the region, and the area is distinguished by the beauty of high evergreen mountains and the proximity of a clear sea.
The modern complex offers apartments with one, two and three soldered rooms. The complex will be completed on December 31, 2024, until the end of construction, residents are offered an installment plan.
