Описание:

This stunning gated community is nestled on the slopes of Catalkoy. In a two-storey complex, apartments are offered for sale on the ground floor with a garden and on the second floor with a terrace. All apartments have private parking.

The excellent location in the quiet settlement of Catalkoy, where there is an acute shortage of apartments, guarantees an excellent investment attractiveness - profitable renting or a rapid price increase. Favorable location near schools, infrastructure, the best supermarkets, the layout of the complex and the excellent quality of construction will provide you with a comfortable life or vacation in Northern Cyprus.
