Описание:

This innovative secure development is setting new building standards in North Cyprus. The complex is located in Iskele in walking distance to the shops and sandy beach, however one of the main complex benefits is the transportation of the residents to and from the beach several times a day. The development, which is located on 44000 square meters, will consist of 6 buildings, 4 large swimming pools, children’s playground, manicured landscaped gardens.

The development brings many innovations to construction in North Cyprus: large Spa on the ground floor of the first building to be built, saunas, covered parking with video surveillance, central air conditioning in all apartments, indoor monitors, smoke detectors. For sale are offered two bedroom apartments with large balconies.

The living are of the apartments varies from 111 square meters to 150 square meters, depending on the building and location in it. Convenient payment plan is offered, with interest-free instalment payments over 30 months. Each apartment is for sale with fitted kitchen units and partial white goods, built-in wardrobes in the bedrooms, marble flooring and marble tiling in the bedrooms. Viewing is highly recommended.
