Villa 3 + 1 in a gated complex in Bogaz

S-BOG-06

Описание:

This beautiful project has moved away from the traditional high-rise building designs in the Iskele region and successfully demonstrates an alternative possible architecture and design. Situated on a hillside in the Bogaz settlement, only 600 meters from the coast, the complex really sets an impressive example, pushing
boundaries of future development in the construction industry. The complex, consisting of apartments of different layouts and villas, is distinguished by a modern and unique
design with high quality interiors that fit perfectly into their location. The property in the complex is distinguished by porcelain ceramics, built-in showers, top-
outdoor terraces, granite kitchen countertops.
The complex offers apartments and villas for sale.
